M4099D

Production Document Scanner

Productivity-boosting features for production-level scanning.

From forms processing to service bureau and centralized enterprise applications, the M4099D scanner delivers the combination of quality, reliability, performance and features your business needs. It scans up to 90 pages per minute (ppm) in simplex mode, up to 180 images per minute (ipm) in duplex mode and up to 15,000 pages per day, satisfying the needs of even the most demanding production environments. A large-capacity, 1000-page automatic document feeder (ADF), a revolutionary paper path and a convenient exit stacker increase user-friendliness.

The ADF also handles a wide variety of paper sizes, from A7 to A3, and can also be configured for stacks of 250 or 500 pages. And because it includes SCSI-2 and video interfaces, as well as industry-standard TWAIN and ISIS® drivers, it integrates well with many imaging systems.

Outstanding service and support.

The M4099D scanner includes a 90-day, on-site, Limited Warranty. For full details on the Limited Warranty and on all service programs, go to www.ImagingService.com or call (800) 301-9475.
